

## Press Release

FOR IMMEDIATE RELEASE

### **Hermetic connectors, a global range of solutions available from CONESYS EUROPE for the Harsh Environment Interconnect systems**

Paris Air Show, Le Bourget, France (June 2017, the 21st) – CONESYS EUROPE, a leading manufacturer and supplier of interconnect systems introduces the possibility to download datasheets for the global range of hermetic connectors.

More than a Catalog and thanks to the great experimentation of its teams, CONESYS EUROPE designs specific solutions and covers main MIL-AERO standards.

“We introduced a new website design that includes a Product Selector tool for main of the products commonly used in harsh Environment. More, our hermetic range to sustain any Electrical or Optical signal without any leakage. Fully integrated due to our own glass to metal sealing know-how, we are recognized and satisfy reliable hermetic solutions”, says Karim Louanchi, GM of CONESYS EUROPE.

Hermetic connectors are widely used in the Military, Avionics, Space, Heavy Industry, Energy and Transportation market segments. Those interconnect products need to comply with severe specifications like robustness, humidity absorption, radiation resistance, vibration, shock severity and an extended operating temperature range and Reach expectations.

For additional information on CONESYS EUROPE’s hermetic answers to Harsh Environment please visit: [www.conesyseurope.com](http://www.conesyseurope.com).
